The Thirteenth Sale.

THIS will be the finest and largest sale that I have yet held. It has been a long time since a coin sale of this size was held in New York City. The catalogue will speak for the quality of the offerings.

Owing to the fact that this is sale Thirteen, the members of the Thirteen Club, and all other persons who disbelieve that the wearing of an opal, or the breaking of a looking-glass carries disaster in its wake, are invited to both sessions. Note that the sale will just miss the date of October *thirteenth* by one day.

Usually in coin sales as large as this strict observance has been given to keeping each line or class of coins by itself. In this sale the departure from this rule is entirely intentional, so that long, monotonous lines of half dollars, quarters, foreign coppers, paper money, and so on, are avoided. This will keep the tyro, specialist and connoisseur alike on their mettle from start to finish.

For $2.00, I will send by express collect, a catalogue of this sale containing many superb plates. For $1.00 we will price your catalogue in ink after the sale.

Let me caution bidders on four important points:

1st: In entering bids be careful that you bid on the right lot.

2nd: Bid by the lot and not by the piece.

3rd: Owing to the large number of lots to be sold at each session, it will be necessary to sell rapidly, so kindly mark in your catalogue in advance the lots on which you wish to bid.

4th: *Bid so much for the lot.*

PLEASE READ BEFORE BIDDING

Coins and medals are sold at *so much per lot* and no lot will be separated The auctioneer will accept an advance of 1 cent up to 50c., then 5c. up to $2.50, when 10c. advance must be bid, up to $10, when no advance under 25 cents will be accepted. You can bid anything up to 50c., after that the bid must be 55c., or 60c. Such offers as 51c., $1.01, etc., are unavailable.

Auction sales are strictly for cash. Parties unknown to me and bidding for the first time, must give bank or other reliable reference.

Forward your bids as early as possible, as thousands of bids have to be entered. Do not make ridiculously low bids, such as 10 and 15c. on foreign silver coins worth several times over as bullion. Write your bids plainly, with a pen if practicable. I have taken special pains to carefully and fairly describe each lot.

Where the number of pieces in a lot is not given after the description, there is but one piece in the lot.

The coins, etc., in each lot are different unless otherwise described.

Be sure you bid on the lot you wish to buy.

All coins, etc., are genuine unless otherwise described.

My charge for executing bids will be 5 per cent. No charge made for bidding except for lots actually purchased. Remit by money order or New York draft, as the usual exchange fee will be deducted from checks.

We will price your catalogue for $1.00.

COLLECTION OF J. N. T. LEVICK.

PART II.

Mr. Levick started to collect in 1856, and has been for many years regarded one of the best and most thorough collectors in our midst. Coin collectors were almost unheard of here when Mr. Levick first turned his attention to the pursuit. He has had a faithful record both as an officer of the American Numismatic and Archaeological Society of New York, and as a soldier in the famous Seventh Regiment of New York, in which regiment he subsequently became first lieutenant.

His principal interest lay in the collecting of American tokens and storecards. Some twenty-five years ago Mr. Woodward sold for Mr. Levick a collection of these numbering about 22,000 pieces. Since then he has given special attention to Jackson tokens and stamps. The tokens are here offered to the collector because Mr. Levick feels compelled, through poor health, to divorce himself from his hobbies. This collection is noteworthy for great rarities in superb condition, some of which prominent collectors have never seen, much less possessed.

HARD TIMES TOKENS.

These tokens are put into five groups: (1) Those referring to the troubles about the United States Bank. (2) Those with satyrical and political mottoes. (3) Those in imitation of the

regular U. S. coinage of the period. (4) Store cards, dated, of the period. (5) Mulings with either obverses or reverses of any of the above.

Many of the tokens bear the curious political utterances of the times, particularly on the two great issues, Jackson's hostility to the United States Bank, and Webster's defense of the Constitution. This controversy extended into the administration of Martin Van Buren. These pieces passed for money, but were unauthorized by the government.
